Academy Brick Chimney

The Academy brick chimney repair is complete. A new cross for the chimney has been donated and is still to come.

"On behalf of our Music Ministry Program, I sincerely thank the parishioners for purchasing two portable air-conditioning units for the choir loft. The downstairs portion of the church is fully air-conditioned; however, the choir loft was never fit with AC. It becomes extremely hot upstairs, especially when the choir is singing during Mass. The pipe organ is also very sensitive to temperature change, so the new portable AC units help to stabilize the tuning of the organ as well. There are still some tweaks to be made, but overall, they do help keep things a little cooler upstairs, so we thank you!"

Ryan Schaffer- Director of Music/Organist

Air Conditioning Units

Two air conditioning units were purchased and installed in the choir loft.

Diverters

Diverters were installed on Parish Center and Church roofs to prevent leaks.

Wood Moldings

The wood moldings around the stained glass windows on the South side of the church were refurbished.

Projects Currently Underway

Repair and refinishing of the wood doors at church entrances. Four doors have been refinished, two more are in process. We will also refinish the trim around the doors and add kick plates to the doors to prevent excess wear and tear.

Repair concrete block in the bell tower.
